

Academy Transformation Trust Further Education (ATT FE)
is committed to supporting the Government's PREVENT strategy

The PREVENT strategy seeks to safeguard learners to help keep them both safe and within the law. The PREVENT duty is not about preventing students from having political and religious views and concerns, but is about supporting them to voice those concerns or act on them in non-extremist ways. The PREVENT strategy focuses upon the prevention of radicalisation and extremism.

Staff employed by ATT FE have undertaken PREVENT training and have this embedded in the Continuous Professional Development (CPD) cycle to ensure regular updates are undertaken.

ATT FE ensures learners are aware of the PREVENT strategy through class induction, weekly sessions, wall displays, learner newsletters and social media/website info.
